Education

Khulna University of Engineering & Technology (KUET) — Expected Graduation: 2028
B.Sc. in Computer Science and Engineering — *CGPA: 3.75/4.00 — 3rd Year, 1st Semester*

Dhaka College — 2022
Higher Secondary Certificate (HSC) — *GPA: 5.00/5.00*

Ideal School & College — 2020
Secondary School Certificate (SSC) — *GPA: 5.00/5.00*

Technical Skills

Programming Languages: C, C++, C#, Java, Python, PHP, JavaScript
Frameworks & Technologies: Laravel, ASP.NET, Bootstrap, Tailwind CSS, REST API Development, MySQL, JavaFX
Developer Tools: Git, GitHub, VS Code, Visual Studio, Linux, Android Studio
Competitive Programming: Codeforces, AtCoder, CodeChef, Inter University Programming Contests (IUPC)

Projects

Smart eClassroom and Lab Management System | *Laravel, PHP, MySQL, Tailwind CSS*

- Developed a role-based Learning Management System (LMS) for classroom, attendance, assignment, and assessment management.
- Built secure authentication, automated session management, and a scalable relational database architecture using Laravel and MySQL.

ScholarSync – Scholarship Eligibility & Allocation System | *Laravel, Oracle, SQL, PL/SQL*

- Developed a scholarship management platform with application processing and role-based access control.
- Automated eligibility verification and merit score calculation using Oracle SQL and PL/SQL procedures and functions.

SGIPC Club Portfolio & Management System | *ASP.NET, C#, MSSQL*

- Built a full-stack club management system with authentication, authorization, and administrative workflows.
- Integrated MSSQL-backed content management and dashboard functionalities for efficient data administration.

JobLink – Desktop Job Portal System | *JavaFX, SQLite, JDBC*

- Developed a desktop job portal supporting recruitment, application tracking, and user management.
- Applied MVC and DAO design patterns to build a maintainable and scalable JavaFX application.

JobLink Android | *Java, Android SDK, Firebase, XML*

- Developed a native Android job portal application supporting Job Seekers, Employers, and Administrators with role-based functionality.
- Implemented real-time job posting, application tracking, and recruitment workflows using Firebase Realtime Database and the Repository Pattern.

Achievements

- Solved **1200+** problems across multiple online judges.
- Reached **Codeforces Specialist (Max Rating: 1420)** under the handle **Sazzad14802**.
- Ranked **26th/91** at MU IUPC 2025 and **41st/130** at AUST IUPC 2025.

Leadership & Activities

- **Assistant Contest Manager**, SGIPC (Competitive Programming Club of KUET); supported the organization and execution of programming contests and technical events.
